Out of School Date is the date provided by your school that typically represents when you will/did graduate or when you were no longer enrolled at least half time.

Below are some common reasons why this date may not reflect your current or actual status:

- You previously left school and have since returned. Therefore, your out of school date represents the original date you graduated or ceased to be enrolled at least half time.
- Your school only reports the current academic year or term; not the full length of your program.
- You have a private loan that allows for a maximum amount of time for an In School Status. Therefore, the Out of School Date represents when you have reached this maximum.

No Out of School Date listed? Some loan programs do not use an Out of School Date for determining when repayment begins, including: PLUS, Graduate PLUS, Consolidation, and many private loans.

Please contact your school if you have questions about your Out of School Date.
