

My mother took out 2 student loans in 2006 & 2007 with me as a cosigner.

She refuses to pay off her loans.

I want to know my rights as a cosigner and if I can either get a cosigner release which my mother is refusing to take part in.

Or...

Create an account with Navient and pay them the loans in full since the interest rate is about 11% and I don't want to see the balance get any higher..
